Dear Lance,

I am happy to recommend Precision Planning, Inc. Your firm did an excellent job on the Sheriff's Department building. There were many issues to be considered in the design of this facility and PPI accommodated all of these. We have many different classifications of detainees and various monitoring methods. I know it was not easy to incorporate all of these features into one building. But we have found that everything works very efficiently.

The employees have found the working in this environment a positive experience. Thanks again to you and Precision Planning and all you did to make this project successful.

Sincerely,

R. N. "Butch" Reece
