To Whom It May Concern:

Over the past 18 months it has been my pleasure to work with the design team of Precision Planning, Inc. on the architectural development of the new Snellville City Center. The community has closely followed this \$8 million dollar plus project from its conception, and the historic style of the new city hall and senior center buildings has been well received. Precision Planning, Inc.'s design has set the standard for future architecture in the City of Snellville.

The project architects Paul Hoover and Jennifer Franklin have shown professionalism and a high standard of care in dealing with contracts and difficult situations during the construction of the project. Their constant level of detail and customer service has really facilitated the owner's understanding of the quality product that is being received. Please do not hesitate to contact me should you need further information about my excellent experiences with Precision Planning.

Sincerely,

Jeff Timler
City Manager
